

ZVX17

Hooklift Livab

ZVX17

The market's most versatile hooklift

Our hooklift ZVX17, known as Livab, can handle all roll flatbeds and load carriers on the market.

A tilting angle of 96 degrees gives the product the possibility of high edge positioning of silo systems. The hooklift has a flexible movement pattern and a long reach, which means easy handling in narrow and low spaces.

With advanced frame construction, it gets low weight and maximum strength.

PRODUCT BENEFITS

- *Swedish-made product.*
- *Maximum strength.*
- *Waste management and silo systems.*
- *Transport of chip containers.*
- *Collection of containers below ground level.*
- *Horizontal movement between car and trailer.*
- *Moving and transporting machines.*
- *With additional equipment, you widen the area of use and cope with special tasks.*
- *Low pull-on height.*
